As stated in the Notification, although the Declaration does not identify on page 1 thereroft the application by the international application number and international filing date, since (1) it contains the title of invention which was on the specification as filed, (2) since the application is identified by international application number and international filing date on page 2 thereoft, and (3) since it was accompanied by a cover letter accurately identifying the application for which it was intended by serial number and filing date [stated in MPEP § 602

Accordingly, applicant believes that the identification requirement for the declaration filed for this application has been satisfied.

Accordingly, applicant believes that this Notification was issued erroneously. No further response to the outstanding Notification of Missing Requirements is necessary.

Respectfully submitted,
